THE DAILY MEMPHIS AVALANCHE.

THE DAILY AVALANCHE

A Congress of the leading Democrats of Europe was held at Geneva, on the ninth instant, in the interest of peace.

Hartford, Connecticut, has twenty-three insurance companies, whose aggregate capital is $33,000,000.

It is related of Napoleon that when Marshal Duroc, an avowed infidel, was once telling a very improbable story, giving his opinion that it was true, the Emperor quietly remarked: "There are some men who are capable of believing everything but the Bible."

A new screw pile light house has been erected at Hooper's Straits, Chesapeake Bay, and the light will be exhibited for the first time on the evening of the fourteenth instant.

A San Jose, California, dispatch, of last Saturday, to a gentleman of this city, Mr. S. S. Lewis, gives the Democratic majority of that State, as far as known, at ten thousand.

A steamboat mate was arrested yesterday in Pittsburg, for robbing and outraging a young lady by the name of Waldron, last Sunday night in a carriage.

General Griffin's child died on the 5th, at Galveston, Texas, of yellow fever. The father is the brute who forbade a public tribute of respect to be paid the remains of General Albert Sidney Johnston, at their final interment last year.

A Washington special to the New York papers says that Grant accuses the President of disloyalty and that the latter don't care—whereat Grant is disgusted, and will take his leave before the week is up. The New York fellows are determined to keep things lively.

Telegraphic dispatches from Washington, dated the fifth and sent to the Western press, state that Grant was too ill on that day to discharge official duty. His reticent mind, perhaps, had been exercising too fatiguingly for his physique.

A Washington dispatch, of the fifth, says that Attorney General Stanbery is ready to issue an opinion arguing and showing that Sickles is individually responsible for his interference with the property laws in the Carolinas.

Just before the recent trip of Queen Victoria to Carlisle, it was discovered that the new railroad carriages of her train had been built too wide to pass through the bridges. This timely discovery prevented a most terrible casualty.

The Virginia Horticultural and Pomological Society has determined to have a horticultural fair in Richmond, some time in October. The cultivation of fruits is soon to become an important portion of the business of that State.

The Charleston *Mercury*, of the 3d, says: "We are glad to learn from the Bennettsville *Journal* that Nat. Williams, the negro incendiary lecturer, has been arrested and carried to Darlington. He is charged with preaching incendiary doctrines to the freed people of Marlboro' district, and will be tried by military commission.

A terrible accident occurred on lake Ontario on the 4th instant. A pleasure party of fourteen young persons were taking a sail on the lake, and on attempting to turn the boat toward the shore, it was capsized and nine of the party were drowned. Six were girls and three boys. The bodies have not been recovered.

It is asserted that the expenses of the New York *Herald* are a million and a half per annum. This is probably an exaggeration—but still the expenses of that, and the other first-class dailies in New York are immense. Expenses of newspapers are not known by the public generally.

The London *Times*, in an editorial on the Alabama claims, charges that Mr. Seward shows by his despatches that he is unwilling to forego a popular ground of complaint, and, like a lawyer, is less anxious for judgment than for litigation.

The old School Board at New Orleans having determined to exercise their functions in spite of their removal, the City Council passed an order suspending all school exercises until the first of October. The dispute is to be settled by an appeal to the courts.

It is a singular historical fact, that Lafayette, who destroyed the Bastile, in Paris, should have had his name applied to the principal "bastile" in this country, during the civil war, to-wit: "Fort Lafayette." He sent the key of the French Bastile, a present, to General Washington, and it hangs in one of the rooms at Mount Vernon.

The Leeds (England) *Mercury* says: "Lady Milton's wedding ring was altogether the work of the noble bridegroom, being fashioned by his own hands from a nugget dug by him in British Columbia, during his visit to the gold fields, after his Northwest Passage by Land,' the marvellous incidents of which he and Dr. Cheadle have so well narrated."

"It is given out" that Mr. Sumner has addressed a letter to an important personage earnestly warning the Radicals against Grant. The letter charges duplicity and conservatism upon the General, and hurls several Latin and Greek denunciations at his head for his abetting the displacement of Stanton by accepting the Secretaryship.

John Prescott, and another employe on the Mobile and Ohio railroad, were shot by a negro, named Henry Williams, at the machine shops near Jackson, Tennessee, on Saturday, 31st ultimo. Prescott was shot in the face, putting out one eye and severely injuring the other. The negro had stolen a lantern, which the white men had gone to get back. The negro escaped.

Some of the members of the committee of Congress appointed for the purpose of examining into and reporting upon the alleged stealing of cotton at the South, by officers of the Government and others, seem disposed to abandon the quest. They have actually discovered that many of the parties implicated are dead, and that others have lost their ill acquired gains in subsequent ventures.

The London *Times* has reason to believe that the report of the Ritual Commission, which the Archbishop of Canterbury has announced, will shortly be issued, and will be decidedly adverse to the practices which seem to have been lately brought into vogue by a section of the clergy of the Church of England. The majority of the commissioners condemn these innovations as illegal or inexpedient, and advise that they be prohibited.

It is a matter of common notoriety that Miss Braddon, the novelist, is the mistress of Maxwell, her publisher; and it is also known that Miss Evans, the author of "Romolo" and Adam "Bede," is living in unholy bonds with Lewes, the Comptist philosopher. When Ruskin's wife left him for Mallais, the artist, it did not prevent that eloquent writer from subsequently praising the pictures of the successful rival to his wife's affections, and when Ruskin lectures, Mrs. Ruskin and her paramour are frequently seen in the audience applauding the deserted husband.

The Baltimore *Gazette* of the 5th contains an account of a robbery committed in McCleish, Rives & Co.'s bank a few days previous. A box containing upward of thirty-three thousand dollars in bank notes was stolen. The bank notes, having been sold to a broker, have been recovered. The bonds lost consist of four for one thousand dollars each of the Richmond and York River Railroad Company; four of five hundred dollars each of the Manassas Gap Railroad Company, each with twenty-one coupons attached; one bond for five hundred dollars and one for one thousand dollars of the South Side Railroad Company, and one other bond for five hundred dollars.

The Montgomery (Alabama) *Mail*, of the 6th, says: "We continue to receive disastrous news of the present cotton crop in this section of Alabama. Planters inform us that the crop within the last month has been cut short at least one-third. It is shedding very rapidly, and the worms are destroying it in many localities. This melancholy news goes far to illustrate the uncertainty of cotton. A few weeks since, the prospect in Alabama for a large yield of cotton was not only brilliant, but unprecedented. Now, the prospect is as gloomy as it was bright then. Heavy and continuous rains and the worm have done their work but too well.

An Albany, New York, dispatch of the 3d inst. says: Considerable feeling is developing itself over the approaching trial of General Cole for the shooting of Mr. Hiscock, who was a member of the State Constitutional Convention now in session here, for the alleged seduction of Cole's wife. The recent developments of the Canal Ring is creating a strong current of feeling in favor of General Cole, Hiscock having been a prominent member of the Ring. General Cole has had numerous proffers of service from eminent counsel, both in this State and from abroad, among whom are Sanford E. Church, General Nye and General Butler, on whose staff Cole formerly served. The celebrated criminal lawyer, W. J. Hadley, has been retained by Cole, and will probably defend him without assistance from other counsel. It is stated upon good authority that Mrs. Cole, the unfortunate lady in the affair, has become insane. Cole is hopeful and in good health and spirits, and feels fully justified in his action. He occupies comfortable quarters in the city jail, and devotes most of his time to reading and writing.

AMNESTY PROCLAMATION BY THE PRESIDENT.

WASHINGTON, September 8.

The following Pardon Proclamation, although postponed yesterday, was not issued until this afternoon by the President of the United States of America:

A PROCLAMATION.

WHEREAS, In the month of July, A. D. 1861, the two Houses of Congress, with extraordinary unanimity, solemnly declared that the war then existing was not waged on the part of the Government in any spirit of oppression, nor for any purpose of conquest or subjugation, nor purpose of overthrowing or interfering with the rights or established institutions of the States, but to defend and maintain the supremacy of the Constitution, and to preserve the Union with all the dignity, equality, and rights of the several States unimpaired, and that as soon as these objects should be accomplished the war ought to cease, and

Whereas, The President of the United States on the 8th day of December, A. D. 1863, and on the 26th of March, A. D. 1864, did, with the objects of suppressing the then existing rebellion, of inducing all persons to return to their loyalty, and of restoring the authority of the United States, issue proclamations offering amnesty and pardon to all persons who had, directly or indirectly, participated in the existing rebellion, except as specified and reserved in those proclamations; and

Whereas, The President of the United States did, on the 25th day of May, A. D. 1865, issue a further proclamation with reference to the cases above mentioned, and to the end that the authority of the Government of the United States might be restored, and that peace, order and freedom might be re-established, and the President did by the said last mentioned proclamation proclaim and declare that he thereby granted to all persons who had directly or indirectly participated in the then existing rebellion, except the parties therein excepted, amnesty and pardon, with restoration of all rights of property, except as to slaves, and certain existing cases where legal proceedings had been instituted, but upon condition that such persons should take and subscribe an oath therein prescribed, which oaths should be registered for permanent preservation; and

Whereas, In and by said before mentioned proclamation of the 29th day of May, 1865, four extensive classes of persons therein especially described, were altogether excepted and excluded from the benefits thereof, and

Whereas, The President of the United States did, on the 2d day of April, A. D., 1866, issue a proclamation declaring that the insurrection was at an end, and was thenceforth to be so regarded; and

Whereas, There now exists no organized armed resistance of misguided citizens, or others, to the authority of the United States in the States of Georgia, South Carolina, Virginia, North Carolina, Tennessee, Alabama, Louisiana, Arkansas, Mississippi, Florida and Texas, and the laws can be sustained and enforced therein by the proper civil authority, State or Federal, and the people of said States are well and loyally disposed, and have conformed, and if permitted to do so, will conform in their legislation to the condition of affairs growing out of the Amendment to the Constitution of the United States prohibiting slavery within the limits and jurisdiction of the United States; and

Whereas, There is no longer existing any reasonable ground to apprehend within the States which were involved in the late rebellion, any renewal thereof, or any unlawful resistence by the people of said States to the Constitution and laws of the United States; and

Whereas, As large standing armies, military occupation, martial law, military tribunals and the suspension of the privilege of the writ of habeas corpus and the right of trial by jury, are in time of peace dangerous to public liberty, incompatible with the individual rights of the citizen, contrary to the genius and spirit of our free institutions, and exhaustive of the national resources, and ought not therefore be sanctioned or allowed, except in cases of actual necessity, for repelling invasion or suppressing insurrection or rebellion; and

Whereas, A retaliatory, vindictive policy, attended by unnecessary disqualifications, pains, penalties, confiscation and disfranchisement, now, as always, could only lead to hinder reconciliation among the people and national restoration, while it must seriously embarrass, obstruct and repress popular energies and national industry and enterprise; and

Whereas, For that reason, it is now deemed essential to the public welfare, and to the more perfect restoration of Constitutional law and order, that the said last mentioned proclamation, as before issued, on the 29th day of May, A. D. 1865, should be modified, and that the full and beneficent pardon conceded thereby should be offered and further extended to a large number of persons who by its aforesaid acts have been hitherto excluded from Executive clemency—

Now, therefore, be it known that I, Andrew Johnson, President of the United States, do hereby proclaim and declare that the full pardon described in this proclamation of the 29th day of May, A. D. 1865, shall henceforth be opened and extended to all persons who directly or indirectly participated in the late rebellion, with the restriction of all privileges, immunities, rights of property, except as to property with regard to slaves, and except in cases of legal proceedings under the laws of the United States, but upon the condition, nevertheless, that every such person who shall seek to avail himself of this proclamation shall take and subscribe the following oath, and shall cause the same to be registered for permanent preservation, in the same manner and with the same effect with the oath prescribed in the said proclamation of the 29th of May, 1865, namely: "I do solemnly swear or affirm, in presence of Almighty God, that I will henceforth faithfully support, protect and defend the Constitution of the United States and the Union of the States thereunder, and that I will, in like manner, abide by and faithfully support all laws and proclamations which have been made during the late rebellion with reference to the emancipation of slaves. So help me God."

The following persons, and no others, are excluded from the benefit of this Proclamation, and of the said Proclamation of the 29th day of May, A. D., 1865, viz:

First, The Chief, or pretended Chief Executive officers, including the President, Vice President, and all heads of departments of the pretended Confederacy or rebel government, and all who were agents thereof in foreign States and countries, and all who held or pretended to hold in the service of the said pretended Confederate Government a military rank or title above the grade of Brigadier General, or naval rank or title above that of Captain, and all who were, or pretended to be, Governors of States, while maintaining, abetting, submitting to and acquiescing in the rebellion.

Second. All persons who in any way treated otherwise than as lawful prisoners of war persons who in any capacity were employed or engaged in the military or naval service of the United States.

Third. All persons who at the time they may seek the benefit of this proclamation are actually in civil, military or naval confinement or custody, or legally held to bail either before or after conviction, and all persons who were engaged directly or indirectly in the assassination of the late President of the United States, or in any plot or conspiracy in any manner therewith connected.

In testimony whereof I have signed these presents with my hand, and have caused the seal of the United States to be thereto affixed.

Done at the city of Washington, the seventh day of September, one thousand eight hundred and sixty-seven.

[Signed] ANDREW JOHNSON.

By the President.
WILLIAM H. SEWARD, Secretary of State.

Conservative Triumph in Montana.

Latest Foreign and Domestic Markets.

NEW YORK, September 9.—The *Herald's* Cuba cable dispatch, dated Havana, 5th, says Vera Cruz dates are to September 1st, and from the capital to August 28th. The reported arrival at Vera Cruz of Maximilian's body is contradicted. It is also contradicted that his body was mutilated. Commodore Roe, of the gunboat Tacony, by the request of the Austrian Commander, claimed the body of the Emperor, and his request has been listened to.

Acting Consul Allenbourg, in the absence of the French, Belgian and Italian Consuls, is acting medium of communication for this Government.

Mr. Plumb has not yet arrived at Mexico.

The Supreme Government has ordered the case of Santa Anna to proceed.

All generals condemned to death at Queretaro, including Costello, have been pardoned. General O'Herron was sentenced by court martial, on the 28th, to be shot on Wednesday. The sentence was carried out on the Plazuatia de Mexicoalco, against the remonstrances of the American Minister.

O'Herron left letters to vindicate his memory.

President Juarez has decreed a convention of the Mexican people, for the purpose of electing a President, Congressmen and Magistrates of the Supreme Court.

Lopez, the traitor, has published an account of the siege of Queretaro, and seeks to establish the fact that its fall was not the result of treachery. Ortega's case was awaiting the action of Congress.

The society of the Sisters of Charity has been abolished, and another, under the patronage of the Republic, established.

The Chihuahua gold fields have been yielding largely. A large supply of munitions of war has been forwarded from Chihuahua to repel the Indians and illibuster.

General Graff, the Agent of the State of Missouri, has within two weeks collected $2,000,000 of the war claim of the State, and deposited the same to its credit in New York. Over five millions of the claim of six millions have now been collected.

WASHINGTON, September 9.—It is alleged that further damaging disclosures of the doings of Ashley and Butler, in their alleged conspiracy against the President, are about to be made by the Attorney General. A Captain Chandler, who formerly was in charge of the Washington jail, is the supposed authority for the new developments.

VIRGINIA CITY, MONTANA, September 9.—Cavanaugh, the Democratic candidate, has been elected delegate to Congress by an overwhelming majority.

NEW YORK, September 9.—Gold opened at 142⅞, and has since advanced to 143¾. Cotton dull and nominal; uplands, 29@29½c. Exchange, 109@109½.

TUESDAY, : : : : : SEPTEMBER 10, 1867

KENTUCKY has been called upon to mourn one of her noblest sons—him who was so recently chosen her Chief Magistrate—JOHN LARUE HELM. He departed this life at half past twelve o'clock on Sunday last, the 8th instant, upon the spot where he was born, the 4th of July, 1807, near Elizabethtown, Hardin county, Kentucky. Many and varied have been the duties he was called upon to perform, from which he not only did not shrink, but discharged them faithfully and in the manliest manner. At a very early age, left an orphan with a large family of young brothers and sisters dependent upon his exertions, he buckled on his armor, and commenced life's battle with a proud heart and unshrinking energy. Is it wonderful that success crowned his efforts? His worth and talents soon attracted the partiality of his native county, and, while yet young in years, the citizens called upon him to represent their interests in the State Legislature. Year after year he continued in the same capacity, until the large influence he had acquired, and his eminent fitness for the position, caused him to be chosen Speaker of the House, a position he filled most satisfactorily and with great dignity and urbanity for several succeeding sessions. Having been selected by a Whig convention to run for Congress, he was defeated by another Whig (Hon. WILLIS GREEN) by a Democratic candidate presenting himself, in Mr. HELM'S own county, which distracted a sufficient number of votes in that county to enable his Whig competitor to obtain the ascendancy. This is the only instance in which he was ever defeated for any position to which he aspired. He was elected Lieutenant Governor at the time Mr. CRITTENDEN was chosen Governor, and upon that gentleman retiring from the Gubernatorial chair to accept a position in President FILLMORE'S Cabinet, Lieutenant Governor HELM became Governor by the Constitution of the State, in which capacity he conducted the affairs of the Commonwealth with characteristic energy and ability for about two years—the unexpired portion of the term. It was our good fortune to be familiar with his Gubernatorial administration, and we feel no hesitation in saying that no Governor of that proud Commonwealth ever discharged the functions of his office in a more satisfactory manner, both as an accomplished, courteous gentleman and statesman. The canvass through which Governor HELM had just passed so triumphantly is too recent, and attracted too much attention, to require any particular mention of it. The people manifested the confidence they reposed in the veteran statesman and high-hearted citizen, and the principles he advocated with so much earnestness and eloquence. The suavity of his manners, his generous forbearance, yet manly and inflexible firmness were regarded with confiding hope by the people in this time of peril. But it has been the will of Providence that he should not be spared to take part in the great events that are hastening on, and the duties that he would have performed with such energy, will devolve upon another, for the time-being, the Constitution of Kentucky requiring a new election when a Governor shall die before one half of his term shall have expired. Kentucky has lost a great and good man—one who performed every duty nobly in all the relations of life. He married the eldest daughter of Honorable BEN. HARDIN, and was the happy father of eleven children. When the Roman matron was asked to display her jewels she pointed to her sons in all the solemnity of maternal pride. Our country possesses jewels of inestimable value, and should regard them as CORNELIA did the GRACCHII. Kentucky, among her noble sons has many whom she may turn to with feelings of admiration, but none of her jewels deserve her fond solicitude more than the memory of her recently deceased Chief Magistrate, JOHN L. HELM.

IN THE empire of LILLIPUT a terrible war once raged between the Big-endians and the Little-endians. One party swore by every thing sacred and profane that eggs should always be broken at the little end, while those who broke their eggs at the big end were regarded as heritics. Our neighbor of the *Appeal* and General ALCORN of Mississippi are engaged in similar war. They crow, scratch the earth, pick gravel, then peck each other's snouts, like two turkey gobblers on a frosty morning. Each knight enters the ring with as much pomp and parade as NAPOLEON exhibited when he commenced his expedition to Moscow. If their performances are only equal to their swelling prologues, wonderful indeed will be their achievements. As the prize fighters would say, our neighbor first threw his hat into the ring. General ALCORN soon after entered, when the parties smiled and shook hands. Our neighbor sent home a stunner over the peeper, drawing first blood, while General ALCORN, who is very active on his pins, danced around his man, got in a socker on his bread basket, when both parties went to grass. During the progress of the fight the belligerents established a mutual admiration society. ALCORN thinks the editor a logician; the editor renews the assurances of his most distinguished consideration. One compliments the other on his "fine intellect," the other speaks of the "great ability" of his antagonist. They tickle each other with straws, and talk in tones "soft as when zephyrs to FLORA breathe." The belligerents gulp down their gall, and the houses of YORK and LANCASTER unfurl a common banner, with roses of mingled white and red. Indeed, this little mutual admiration society reminds us of the old tale about the swimming of the Hellespont, and the ecstatic joy felt on that occasion. We congratulate the happy couple on their marvelous discoveries.

THE Amnesty Proclamation of President JOHNSON will be found elsewhere in our columns. We have examined it to see wherein it differed from a former Proclamation, but can only discover in a casual reading slight alterations. The exceptions to the amnesty are not increased, as they include only those of the military above the rank of Brigadier General, and nothing is said of those owning $20,000 and upward. It occurs to us that this reiteration of general amnesty is merely a reassertion of executive prerogative, with which the usurpations and assumptions of Congress had been considered as materially interfering. The form of oath is modified, and may be taken by all who desire to be restored to their civil rights, without the slighest scruple or reservation. It requires fidelity to the constitution and laws, and the proclamations etc., relative to the emancipation of slaves. As it has generally been conceded that the slaves were emancipated, and the States have ratified the amendment to the constitution, so enlarging them, there can be no difficulty on that point. The caution with which the President is evidently moving, shows that he either has a complicated task to perform, or is yet apprehensive of the presence of conspirators seeking his prostration. The late election reports may inspire him with a greater degree of courage.

Boyd & Co., Solicitors of Patents, 208 Pine street St. Louis, Missouri, officially report to the AVALANCHE the following patents, granted Tennessee & Kentucky, Arkansas, Mississippi and Louisiana, inventors for the week ending August 27th, 1867: T. NEW ADVERTISEMENTS.

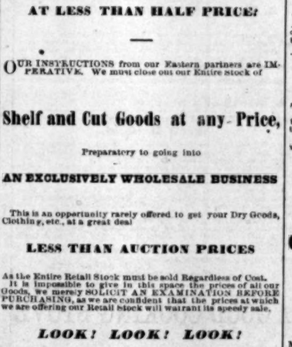
The Greatest Cough Remedy Ever Discovered.



DR. C. WILLIAMS'

Compound Pulmonic Balsam of Wild Cherry and Wood Naptha,

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood, and all other Lung Complaints, leading to Consumption.

READ! READ! READ!

THIS justly celebrated preparation is recommended by some of the most learned and intelligent physicians in the country, and will be found far superior to any remedy for the cure of all diseases of the respiratory organs. All persons who have used it for Asthma, Cough, Spitting of Blood, Hooping Cough, Croup or Hives, Common Cold, Pain, Soreness of the Breast, Difficulty of breathing, and every other disease of the Throat and Lungs, attest to its superior efficacy in the most unqualified terms.

BRON-HITIS, a disease which is annually sweeping thousands to a premature grave, under the mistaken name of Consumption, is promptly relieved and cured by it. The usual symptoms of this disease, (Bronchitis) are Cough, Difficulty of Breathing, Hoarseness, Soreness of the Throat or Lungs, Asthma, Hectic Fever, accompanied with subbing of phlegm or matter, and sometimes blood. It is an inflammation of the membrane which lines the inside of the walls of the wind tubes or air vessels which run through every part of the Lungs. This Pulmonic Balsam immediately suppresses the Cough and Pain, subdues the inflammation and fever, removes the difficulty of breathing, by producing a free and easy expectoration so that a cure is soon effected. It always cures ASTHMA. Two or three doses will cure the CROUP or HIVES of children in a few minutes, and it is remarkable how prompt it is in subduing the violence of HOOPING COUGH, and effecting a speedy cure, and many who have been given up by their physicians as incurable in Consumption, have been restored to perfect health by it.

☞ Sold by all Druggists in Memphis and everywhere in the South and West. sep8

BURGLARS CAUGHT.—About two o'clock on Sunday morning, fireman Clarey was on watch at the engine house on Poplar street, when some suspicious noises in the alley adjoining attracted his attention, and he walked through the alley toward Jefferson street. Standing still to listen, he heard in the darkness a whispered conversation, and the next moment three negroes in single file, carrying loads of clothing, came toward him. When the first was close to him, Mr. Clarey drew his revolver and ordered a halt. The negro in advance stopped and was taken prisoner, but the other two turned and ran rapidly down the alley, in their flight throwing away part of the goods they carried. Mr. Clarey took his prisoner, who offered large bribes to be let off, to the station house, and delivered him to the Sergeant in charge who locked him up. Mr. Clarey returned to the alley where he had found the negroes, and there came across one of those who had previously escaped. In taking his first prisoner to the station house and returning, a policeman had been seen on the whole way. When Mr. Clarey saw the black who had first escaped, he ordered a halt again, but the negro s arted to run. Mr. Clarey shot at him and the report brought the policemen promptly to the spot. They were at first disposed to arrest Mr. Clarey for firing inside the corporation, but when they heard the circumstances waived that. It was subsequently ascertained that the clothes found in the possession of the black who had been captured, and dropped by those who ran away, had been taken from the store of Lyon, Fies & Co., corner of Main and Jefferson streets, which had been burglariously entered. We mention the circumstances in detail because undue credit has been given to the police for the arrest, which was solely due to the energy and watchfulness of Mr. Clarey. On Sunday a colored stool pigeon was placed in the cell with the black who had been arrested by Mr. Clarey, and drew from the prisoner a full account of the parties engaged in the burglary, who were forthwith arrested and are now held to answer.

DEATH OF MR. CHARLES G. LEONARD.—We are pained to learn that Mr. C. G Leonard, printer, lately of this city, died of yellow fever in the city of New Orleans, on Wednesday evening last, the 4th instant, after an illness of seven days. The deceased resided in Memphis for a period of three years, where he formed many acquaintances, both among the members of the typographical fraternity and the citizens generally, who held him in the greatest esteem for his unfaltering uprightness and suavity of manner. An able compositor, and possessed of a feeling heart, he never turned his back upon the needy among those who had been the companions of his youthful though laborious days, and many of those who knew and befriended him while in this city will give a sigh of regret, and fill the cup of pleasure in sorrow to his memory, when they learn of his early "taking off." He was about twenty-five years of age, and a native of the State of Indiana. May he rest in peace.

A NEW DODGE.—Sunday evening a coarse rough woman of stalwart frame, red face and bleat eyes, appeared at a private residence on Jones avenue. She said she had been blown up on a steamboat, was penniless, and begged for a lodging place among they servants of the family. The request was granted. During the night the kind colored hosts were robbed. While the thief was gathering plunder one of the inmates of the kitchen was aroused. The thief fled with the booty, leaving a dress, shawl and bonnet. The cook looked out and the woman of the night before was a well breeched man.

ITEMITAS.

Probate Court has adjourned to the first Monday in October.

H. Clay Conde, Esq., proposes in a short time to visit Montana and the gold regions.

Homer Leonard was arrested yesterday for stealing a pair of pants from the store of Mr. Mass, on Main street.

The millinery store of Mrs. Gatti was entered on Saturday night, and robbed of a hundred dollars worth of goods.

A fellow known as "Piggie" McCue shot himself when he was drunk, and said it was done in a "fair fight."

S. H. Scranton, who sang well and was a good clerk at Block's, and a nice young man, has gone North to live at Rochester, from whence he came.

Ned Whiffen, a negro, was arrested for stealing a mule from before the store of Wallace & Co., on Union street. The mule belonged to Jim Scott, a colored drayman.

The Rev. C. A. Davis, having returned to the city in fine health, preached on last Sunday in the Cumberland Presbyterian Church. Having to attend Presbytery, he will be absent on next Sunday.

The efficient and courteous life insurance agent, Barbour, returned to the city yesterday, looking unusually well. He has induced several new insurance companies to make arrangements for doing business here next fall.

Several cases of alleged yellow fever were brought up the river on a boat, recently, but the authorities at once took the matter in charge, refused to let the boats land, and sent a competent physician with them up the river.

A militiaman at Trenton, on last Sunday, stopped a colored man on the highway and demanded money enough to buy a watermelon. The negro, whose name is Alfred Deber y, and who is a stout, resolute fellow, turned to and gave the militiaman a very severe whipping, which he deserved.

One of our city firemen, on last Saturday, drew a hundred and eighty-seven dollars in city scrip, as pay for services; but being obliged to convert it into cash he was only able to get eighty dollars for the whole. Such a depreciation is exceedingly hard on city employes, who are poor men. It certainly shows a worse state of affairs than existed under the old Board of Aldermen, when scrip was never below seventy-five or eighty cents on the dollar.

As a negro boy named Sampson Smith was going home, on Saturday night, he was met, about two miles from the city, on the Pigeon Roost road, by a gang of drunken blacks, when one of them, a boy named Martin, came up, and, snatching a pistol from Smith's belt, shot him in the back. Another shot was fired, but failed to touch him. The wound is said to be dangerous. A brother of the wounded man went out with a loaded gun to look for Martin, whom he met, but had the tables turned on him, for Martin took him prisoner and carried him to the station house. When Smith told his story, Martin got excited and struck him. The officers arrested Martin, after a struggle, and locked him up.

An Italian and his wife, who kept grocery on Shelby street had an altercation a day or two since, when the lady, after giving her lord a sound castigation, demanded of the police that they should take her to the station. Wearying of her stay there she put up a forfeit for appearance and went home. The husband being rather bad tempered, repaid her ill treatment in his turn, by beating her, when she gave him in charge of the police. Following her example a second time, he also put up a forfeit for his appearance and returned home, where it is supposed that, having tested each others pugilistic qualities, they will henceforth live in amity.

Last Friday evening, about seven and a half o'clock, there was a peculiarly vivid flash of lightning, which attracted great attention from its evident proximity to our city. That stroke of lightning fell upon the bus ness house of Black, Camron & Co., on Charleston avenue, but did very little damage to it. It struck about the centre portion of the building, knocking off a few bricks and tearing the roof for about a foot square. It then passed down through to the first floor, but did no further injury to the house. On the first floor, however, it knocked four persons senseless. Mr. R. McAnerny, Mr. James Camron, and Mr. O. G. Camron were rendered insensible, but soon recovered. Mr. R. M. Black was sitting on the iron work of a store truck, and was worse hurt than any of the others. His feet were badly blistered, and it was some time before he was restored to consciousness.

LA RUE'S MINSTRELS.—The house last night was larger than that of Saturday evening, and attended by more ladies. The same excellence marked the performances, and the same constant applause followed, often interrupting the music or the humor. This evening will be the last of the series of entertainments at the Greenlaw, and a magnificent audience will doubtless be present to enjoy the rare harmonies of the troupe, as well as their versatile and eccentric performances.

FANNY THURSTON LECTURE REVIVUS.—It will gratify many citizens to know that the indefatigable Mr. Kerr has not yet given up the cause of the widows and orphans, but is making arrangements for another course of lectures by distinguished citizens and strangers. The first lecture of the course will come off this evening in the Tabernacle, and will be delivered by George Gantt, Esq. The subject has not yet transpired. Mr. Gantt is one of the ablest and most eloquent gentlemen in the city, with a mind stored with rare as well as useful and professional learning a fan y that is rich in poetic conception, and an eloquence that is alike captivating and impressive. These Fanny Thurston lectures not only deserve encouragement from their noble charitable object, but from the fact that they tend to develop and cultivate literary taste among our young people. They do much to improve the social and moral tone of the community, and th re is no circumstance connected with them that the most severe judgment could condemn. They have realized already a very handsome sum, that has cheered the hearts of many widows and orphans. They have sown the seed that many yield a harvest of blessings in coming years, and we trust that so good an enterprise will be hereafter even more liberally patronized than it has been heretofore. It only asks one evening a week at its excellent lectures in the Tabernacle. Its lectures being always on Tuesday evening, its friends can adapt their other engagements to its claim for one evening a week.

A SUPERIOR SEWING MACHINE.—Making a stronger seam, that is less liable to rip than the work of most others—sewing without noise—little liable to get out of repair—easily operated, and adapted to all kinds of sewing—the Grover & Baker sewing machine has no superior for family use. Combining many advantages, it has a wide popularity, and is the most sa isfactible machine in this market. Thousands have tested it, and at many fairs and public exhibitions it has carried away the premiums from all competitors. Only the old fashioned sewing machine and seventeen to twenty years of age are superior to it. The salesroom for the Grover & Baker machine is on the northwest corner of Main and Monroe streets, up stairs.

CHANGE OF SCHEDULE—HARD TIMES NO MORE—MONEY ABUNDANT.—Through the winter and spring there will be regular monthly drawings of the Southern Life. Agents of the company everywh re write that in the South nothing can be done till cotton relieves the money market. Bankers and merchants say that from ten to fifteen millions of dollars have been remitted to the North in the past few months in payment for plantation supplies. There is no money in the city or country. People could not buy tickets who could hardly buy bread. An abundant crop, everywhere in the South, will change this condition of things. As already announced, the two schemes will be drawn on the third Monday in October. There will be no future postponement. The farms sold for one dollar each contains from forty to one hundred acres, and lie on Memphis railway lines.

RETURNED.—We are gratified to see the heavy cotton buyers returning. Yesterday Mr. C. F. Smith, of the firm of G. W. Wright & Co., No. 9 Madison street, put in his appearance. Mr. Smith is also agent for the Little Miami railroad. "The Old Reliable," with Major De Vasea as his chief clerk. They will do to tie to.

THANKS.—Colonel McCormick last night placed us under great obligations for files of papers, including those of Charleston, South Carolina, Shreveport, Louisiana, New Orleans, Chattanooga, Louisville and Nashville. We are at all times pleased to notice the attention received from the Southern Express, through its efficient and courteous officer.

WANTED.—A accomplished and experienced young lady wants a situation as teacher. Address "H," at this office.

CASH BUYERS—Are invited to examine the largest stock of hats and caps in the South, to be sold out cheap for cash. Merchants visiting the city are requested to examine our stock.

RIVER NEWS.

BUSINESS—WEATHER—RIVERS.

Weather clear and pleasant. The river continues to decline with the channel cutting slowly. The packets report from seven to eight feet water between here and Cairo. The Ohio is falling with four feet scant on the bars in the lower Ohio. The Arkansas remains at low tide with thirty inches scant in the channel. White river is getting low with four feet to Augusta. The St. Francis river is at its lowest ebb, with only twenty-eight inches above Madison.

MISCELLANEOUS.

The river continues to decline, and is lower at this place than it has been during the season, if not for several years.

The Mollie Hambleton arrived from the St. Francis river. We may expect quite an influx of the staple by the 15th.

The landing presented a much more lively appearance than for several days past. There were a number of arrivals, which of late has been unusual.

The Champion left Cincinnati for Memphis Friday evening, with a cargo of merchandize.

The Minnecola and Rob Roy were loading for Memphis at Cincinnati, and the Berlin for Arkansas.

We are authorized to say that there is no combination as regards freight with the White river packet line and the Memphis and St. Louis Company. The Memphis and White River Packet Company are working for the interests of Memphis merchants, and are using their best efforts to keep outside boats from carrying the trade which naturally belongs here to St Lou s and Louisville. Our merchants must therefore stick to the regular packets, in order to build up the trade of which they receive the most benefit from.

The Commercial, Captain William Ashford, is the regular Tuesday packet. She leaves to day at five p.m., taking freight for all way points on White river and Little Rock. The Commercial has super passenger accommodations, and is in charge of competent officers. Captain Morton, a gentleman of large calibre, and no ed for his courtesy, presid s in the office. It is a source of pleasure to travel with Captain Morton, as he takes a delight in making comfortable and at home all who chance to travel with him.

The Gleaner left Pine Bluff yesterday for Memphis and will be found in port Wednesday evening.

The American arrived from Little Rock on Sunday evening. She was put on the docks yesterday, where she will undergo a thorough overhauling preparatory to plying in the Memphis and Little Rock trade during the low water siege.

In order to guard against the yellow fever, which is raging in New Orleans, the Mayor has judic ously established a quarantine at President's Island. Upward bound boats will not be permitted to land at the wharf until examined.

The tow-boat Mohawk passed up on Sunday. She had several cases of yellow fever on board, and one death while laying at the wharf. The Mayor furnished the boat with medicines and a doctor, and order d the Captain to leave the wharf. The Captain injudiciously landed his boat up against the wharf-boat with the pest on board, endangering our community. The act was dastardly and unpardonable.

The City of Alton, Captain Sam. McPheeters, is the regular Tuesday St. Louis packet. She leaves at five p.m. Mr. McCreight, a clever gentleman, presides in the office. The "hull of the woods" still retains her popularity, and under the command of Captain McPheeters she is winning new laurels every trip.

The Belle Memphis cleared for St. Louis last evening with a fair passenger trip.

Captain Sam. Shock has made his appearance again on the levee.

The purchase of an interest in the St. Patrick by Captain Huls, and his assuming command, causes the retirement of Captain John Edeson, who during the period this popular boat was under his direction, gave universal satisfaction, and considerably added to his own and the popularity of the St. Patrick. He will not be long out of a berth, as his experience and acquaintance are both extensive, and the season of business is almost here.

Captain Garrett Huls, formerly an officer in the lower Mississippi trade, and well and favorably known as an experienced and able steamboatman, has bought an interest in the St. Patrick, and takes command. This announcement will be hailed with pleasure by the numerous friends of Captain Huls, who will be ready to avail themselves of the St. Patrick resuming her regular Vicksburg trips to-day at the usual hour. She leaves to-day at five p.m. for Vicksburg and all way points in the bends. Messrs. Clay Rice and Aleck Waddle are her courteous and attentive clerks. Dr. Clay Rice, by the way, is a fixture on the St. Paddy.

The steamer St. Johns, bearing the Indian Commissioners was fired into by Indians, near Fort Sully. No damage.

The Natoma will resume her regular trips in the St. Francis river trade on Friday next.

The Mollie Hambleton arrived from St. Francis river yesterday morning, and has laid up on account of low water.

The Louisiana grounded at Paw Paw Island on Friday. The Natoma lost twelve hours by lightering her off.

The Natoma will be found at the wharf this morning.

The Dan Able will resume her trips in the Vicksburg trade on Saturday next.

The Empire arrived from Louisville yesterday with a light trip of merchandise. She returns to Louisville to-day at five p.m.

The R. C. Gray left for Cincinnati last evening.

The W. R. Arthur, Captain Drouillard, leaves this morning at ten o'clock for New Orleans.

The Nightingale, Captain Frazier, leaves the wharf to-day at five p.m. for Vicksburg.

The steamers Morning Star and Tarascon are to be supplied with petroleum furnaces.

Captain John H. Burk takes command of the T. L. McGill.

J. Robert Bonsly will command the Sam. Gaty, which is being rejuvenated.

Captain D. H. Silvers goes on the Mary McDonald.

Description of a Free Negro State.

The great historian and profound thinker of Great Britain, Mr. Carlyle, in his able article in the New York *Tribune*, for which that journal paid him one thousand dollars in gold, thus draws the following portrait of the island of St. Domingo, the paradise of free negrodom, where the negro has been free and independent after his peculiar fashion for twenty years. It would be difficult to put in fewer words the mighty contrast between what the island actually is and what it ought to be. Its productions and the character of its negro cultivation are admirably described. In this description our readers have a forecast of the destiny of the Southern States under the Radical policy. Mr. Carlyle says:

"Poor Dominica itself is described to me in a way to kindle a heroic young heart; look at Dominica for an instant: Hemispherical, they say, or in the shape of an inverted washbowl; rim of it, first twenty miles of it all round, starting from the sea, is flat alluvium, the fruitfulest in nature, fit for any noblest spice or product, but unwholesome except for niggers held steady to their work; ground then gradually rises, unbrageously rich throughout, becomes fit for coffee; still rises, now bears oak woods, cereals, Indian corn, English wheat, and in this upper portion is salubrious and delightful for the European—who might there spread and grow, according to the wisdom given him, say only to a population of one hundred thousand adult men; well fit to defend their island against all comers, and beneficently keep steady to their work a million of niggers on the lower ranges. What a kingdom my poor Frederick William, followed by his Frederick, would have made of this inverted washbowl, clasped round and lovingly kissed and laved by the beautifulest seas in the world, and beshone by the grandest sun and sky! 'Forever impossible,' say you; 'contrary to all our notions, regulations and ways of proceeding or thinking?' Well, I dare say. And the state your regulations have it in, at present, is: Population of one hundred white men (by no means of select type), unknown cipher of ratio-makes, profligate niggers and mulattoes, governed by a piebald Parliament of Eleven (head Demosthenes there a nigger tinman)—and so exquisite a care of being and wellbeing that the old fortifications have become jungle quarries (tinman at liberty to tax himself), vigilant roots penetrating the old ashlar, dislocating it everywhere, with tropical effect; old cannon going quietly to honeycomb and oxide of iron in the vigorous embrace of the jungle; military force nil, police a form next to *nil*; an island capable of being taken by the crew of a man-of-war's boat. And indeed it was nearly lost, the other year, by an accidental collision of two niggers on the street, and a concourse of other idle niggers to see, who would not go away again, but idly reassembled with increased numbers on the morrow, and with ditto the next day; assemblage pointing *ad infinitum* seemingly—had not some charitable small French Governor, from his bit of island not far off, reach, with over a lieutenant and twenty soldiers to extinguish the disgusting absurdity, and order it home straightway to its bed, which instantly saved this valuable possession of ours, and left our Dominica tinman and his ten with their liberty to tax themselves as heretofore. Is not 'selfgovernment' a sublime thing in colonial islands ahd some others? But to leave all this."

An inadvertent but very important error in the last official statement of the public debt has been discovered at the Treasury Department. The correct on reduces the amount of the debt by $12,672,730; the aggregate debt is therefore $2,692,000,000, instead of $2,705,000,000. The error was not only confusing but turned compound interest notes not presented for payment. This item, specifically, is a new feature in the debt statement, and on this occa ion the mistake was made of not deducting this from the amount of debt bearing currency interest.

A dispatch from Poughkeepsie, New York, states that one of the officers of the First National Bank of Kingston had failed for $200,000, and the bank loses $170,000.

An elaborate opinion was yesterday delivered by Justice Bernard, denying the motion for injunction and appointment of receivers to wind up the affairs of the Merchants' Union Express company. The court finds the Merchants' Union company solvent, owing no debts and several hundred thousand dollars in the treasury.

The Controller of Currency has been appointed receiver of the Farmers' and Citizens' National bank of Brooklyn, New York, which failed for thirty days to have on hand in lawful money of the United States, an amount equal to fifteen per cent. of its circulation and deposits. The bill holders are amply secured by the securities deposited with the Treasurer of the United States.

BOSTON, September 9.—In the Rural claim of nearly a million dollars against the city, tried in the United States Circuit Court, Judge Clifford, this forenoon, gave his decision that the city had a right to assess money to the amount of the land, and instructed the jury to return a verdict averse to plaintiff, which they did.

The St. Louis *Democrat* of Saturday reports the failure of Sherwood, Karnes & Co., commission merchants of that city. The extent of their liabilities has been variously stated as from $200,000 to $50,000. We have learn their misfortune has been brought about by failures of parties with whom they were connected elsewhere. They were chiefly engaged in the flour business.

McClintock, Rives & Co., of Baltimore have had a tin box containing $50,000 in bonds, notes and railway securities stolen from the Franklin Bank of Baltimore. Many (?) of the bonds and securities were of no declared value.

The *Express* says that rumors are current that an officer of a national bank up the Hudson river had run away with a large amount of money belonging to the institution, and the bank had failed. There was another report that a national bank in Williamsburg was in trouble. These rumors did not create much sensation.

SAVANNAH, September 8.—Reports of Sea Island are discouraging. Along the South Carolina coast the rain and worm-made great havoc. Reports from the Georgia coast say the worm only appeared on two islands. Other islands expect a fair crop. Estimated crop 3000 pounds. The rains continue, but reports from the interior are good, and fair crops are expected of uplands. No new Sea Island cotton arrived yet.

COMMERCIAL.

DAILY AVALANCHE OFFICE,
TUESDAY, September 10, 1867.

The weather continued clear and warm yesterday. The week opened with a decided improvement in confidence, and the tone manifested a disposition to move out of its recent stagnant sing glahness. We may look for more and continued activity as the season advances, nor shall we regret if this activity should exceed the anticipations of the most sanguine. Three bales of new cotton came in yesterday, and planters in Arkansas and Mississippi are beginning to pick with energy. Our merchants are receiving additions to their stocks of goods, in expectation of a large trade, and prices will be favorable to those who deal here.

The leading markets exhibited a fair amount of activity yesterday. Provisions were firm, with mess pork in demand, and light receipts; selling at $26 50@27 for jobbing. Clear sides are in tight supply, with prices firm—ruling at 16@16½ for jobbing. Flour quiet, with full receipts and fair local demand. Corn steady, with a small trade doing. Hay dull at $1@1 25 per 100. Groceries are steady, with prices firm and unchanged.

COTTON.—The market yesterday opened quiet, with a limited demand, and offering freely. Prices throughout the day ruled firm, and holders were unwilling to make concessions. Buyers bought sparingly, and the largest sale any one day closed with few sales; middling, 26½c; low middling, 25½c; and good ordinary, 24½@25c. Three new bales of cotton were received yesterday per river.

Falling Creek Annual Provision Exchange, of the 6th, says: "Since my last, there has been an advance in all articles except bacon, coming under the head of Provisions, and a large trade both consumptive and speculative, has been done. The certainty of a short corn crop, and the probability of a late opening of the packing season, as well as the probable shortening of crop by sometimes large eastern shipments of hogs, has had effect to do with the advance. Together with the general belief that cut meats will all be used up, before new can be made, and that all meats, new and old, are mere pin money to be smoked to supply the deficiency; in fact, the experiment is now being made, and should it prove feasible, will most greatly to reduce the stock of mess. The market closes very firm, with still upward tendency. Mess Pork has attracted considerable attention during the week, and large sales have been made, both for export and speculation, the article being relatively far below any other part of the hog, has given evidence of its intrinsic and capitalistic, as to its final outcome, and the high price of other articles has induced operations in this. At the close it is firm, at $28 50, cash, for city, holder asking 30c more. Sales to-day amount to about 500 barrels; but little country offering. There is no rump pork in market. Lard has been in active demand all the week, but the difference in views of buyers and sellers has restricted trade. It however advanced to 15½c as a trading figure, and with sales at the close at 15¾c—generally held at 16c for city; Keg lard is abundant and but little called for, and could be had at 15@15½c; Greases scarce and nominal. Bulk meats have been in good demand all the week, with large sales to-day, and a firm feeling. At the close the lowest trading prices are 13½, 14½, 15½, and 16c, loose, for shoulders; sides, clear rib and clear sides. Hams neglected; 18@19c would be an outside figure. Bacon has advanced 1c; sides have since my last, coming firm at 17½, 18 and 19c for shoulders, rib and clear sides, packed. Hams dull; 19@20c for plain, and 22@23c for sugar cured. Beef and hams dull at 18c. Plate beef, 22c. Whisky held at 25c, with buyers at 23c."

INDIAN COTTON AT LIVERPOOL

From the New York *Bulletin*, September 4.]

The latest mail advices from Liverpool give the stock of cotton at that port thus:

	1867.	1866.
Stock of cotton August 17	680,000	826,000
Proportion of Indian cotton	180,000	300,000

The imports of cotton from India to Liverpool from January 1st to date, has been 276,510 bale , against 1,056,231 bales in 1866. The decrease shown here in the amount of cotton received from India in 1866 after the close of the war—was so great as to encourage at first the idea that the production in that country would fall back to its comparatively small amount, and leave to our Southern States the supremacy in the Liverpool market.

It soon since appeared, however, that the cotton production of India has been greatly stimulated by the high prices of the past few years, that there is every prospect of its continuance, and that at the present year the export to Great Britain will be large.

The report of Mr. Watson, the Cotton Commissioner of the Presidency of Bombay, India, which was published in April last, gave statements of a very remarkable increase of the crop of 1866-7 over that of 1865-6. We quote from the *Times*, of April 2:

"Having now given the particulars for the two divisions, which will suffice if we merely give the totals for the whole Presidency, as the aggregate shows an increase in every item. There are now under cotton in the whole Presidency 1,979,162 acres of land, of which 741,814 are planted with "exotic" cotton—subject to the important qualification received in the case of the Broach Khandish. These figures show fifty-four per cent. more than last year (1865-6) cultivated for superior varieties, and something less than one per cent. increase for the native plant. The total yarn out for 1866-7 is estimated by the Cotton Commission, aided by the opinion of the various collectors, at 18,455 candies, (of 784 lbs.) being an increase of 50,000 bales. Of the total number of candies 40,000 consists of the exotic or acclimatized varieties, the remaining 78,000 being the native proved—though a large proportion of it being the better cla s of indigenous cotton. These figures show for 1866-7 an increase of 125 per cent. of out turns of the superior varieties of the staple, and a little over three per cent. increase in the quantity of native cotton. We need scarcely remark that this estimate of three lakhs of bales of new cotton refers strictly to what is grown within this Presidency, and takes no account of the increasing quantity that may be expected from the central provinces and from Berar."
